Audit Recommended Improvements

2026 Energy Efficiency Incentive Form

ELIGIBILITY CRITERIA

- ❖ Home or farm being improved must be on cooperative's lines.
- ❖ Energy efficiency improvements must be recommendations from an audit arranged by your cooperative or a cooperative-approved partner.
- ❖ The audit must be a comprehensive audit, including a written report.
- ❖ The audit report must indicate the improvement will result in electrical or delivered fossil fuels (LP, oil) reduction or efficiency.
- ❖ If another incentive is available, the audit recommended improvement will qualify for only that incentive. For example, if an auditor recommends purchasing an ENERGY STAR washer, the washer will qualify for the Appliance incentive, not the Audit Recommended Improvements incentive.
- ❖ Improvements must be completed within 24 months of the audit date.
- ❖ Each member account qualifies for only 1 Audit Recommended Improvement incentive every 5 years, regardless of the number of audits performed and regardless of the number of measures implemented.
- ❖ Incentives are in place through December 31, 2026. Funds are limited so submit required documentation as soon as possible.
- ❖ Required documentation must be submitted within 3 months of implementation of audit recommended improvements.
- ❖ Additional eligibility criteria may apply. Program is subject to change or cancellation without notice. Contact cooperative for details.
- ❖ Required documentation listed below must be submitted no later than 3 months after improvements are completed.
 - ✓ This incentive form
 - ✓ A copy of your receipt or invoice for each improvement with purchase price(s) circled
 - ✓ Copy of the audit documentation
 - ✓ Documentation showing improvements have been implemented

Terms and Conditions – Audit Recommended Improvements Rebate

Program Offer: The Program covers products purchased and/or services rendered on or after January 1, 2026.

Eligibility Criteria:

1. Home or farm being improved must be on cooperative's lines.
2. Energy efficiency improvements must be recommended actions from an audit arranged by your cooperative.
3. The audit must be a comprehensive audit, including a written report.
4. The audit report must indicate the improvement will result in electrical or delivered fossil fuels (LP, oil) reduction or efficiency.
5. If another incentive is available, the audit recommended improvement will qualify for only that incentive. For example, if an auditor recommends purchasing an ENERGY STAR washer, the washer will qualify for the Appliance incentive, not the Audit Recommended Improvements incentive.
6. Improvements must be completed within 24 months of the audit date.
7. Each member account qualifies for only 1 Audit Recommended Improvement Incentive every 5 years, regardless of the number of audits performed and regardless of the number of measures implemented.
8. Incentives are in place through December 31, 2026. Funds are limited so submit required documentation as soon as possible.
9. Required documentation must be submitted within 3 months of implementation of audit recommended improvements and includes the following:
 - a. This incentive form
 - b. A copy of your receipt or invoice for each improvement with purchase prices circled
 - c. Copy of the audit documentation
 - d. Documentation showing improvements have been implemented.

General Terms and Conditions

Rebates shall be pro-rated based on the percent of power supplied by the utility if the customer has distributed generation.

Application Information: Missing or incorrect information on the application may delay processing and delivery of the rebate. An invoice is required and should include specific product information, including the brand, model, serial number and date of purchase of the energy efficient measures. Other information including manufacturer's equipment

performance sheets may be required upon request. The Utility reserves the right to verify sales transactions and to have reasonable access to the Customer's facility to inspect pre-existing equipment (if applicable) and energy efficient measures installed under this program.

Warranty Information: The Utility makes no warranties, expressed or implied, with respect to equipment operation, material, workmanship or manufacturing. The Utility does not guarantee that a certain level of energy or cost savings will result from the use of products covered by this program.

Limitation of Liability: The Utility's liability in connection with this program is limited to paying the rebate specified when all terms and conditions have been satisfied. Under no circumstances shall the Utility be liable for any consequential or incidental damages or tax liability resulting from participation in this program.

Participant Certification: Participating Customer certifies that he/she purchased and installed the equipment listed on their application at the defined location served by the Utility. The Customer agrees that all information provided is true and that he/she has conformed to all program requirements. If the equipment and application does not comply with the Utility's rules and qualifications, the rebate amount may be denied or adjusted.

Program Changes/Termination: The Utility reserves the right to extend, modify (including incentive levels) or terminate this Program at any time without prior or further notice. The Customer is responsible for checking with the Utility to determine whether the program has been changed or is still in effect.

Customers must apply for rebates within six (6) months of the purchase date (as shown on the Customer's invoice) and are subject to the current year program offer if received after January 31st. Past eligibility, however, does not guarantee that equipment will meet criteria for current programs in effect.

Rebate forms must be returned by 1/31/2027.
